

The convertible headset that fits every office user

VXi Tria™ Convertible Headset

Three wearing styles

The VXi Tria is an extremely lightweight and stylish headset that comes in three wearing styles. A single solution makes it easy for buyers and supervisors, while providing the user with a choice.

Clear communication

Designed for contact centers and office environments, the VXi Tria provides a high quality solution for companies worldwide that depend on their headsets for clear and consistent communications.

Lightweight and comfortable

The VXi Tria builds upon VXi's experience designing headsets to be worn all day long. It is lightweight and adjustable to provide the best possible fit every time.

Sound quality

VXi headsets are equipped with noise-canceling microphones and high quality audio receivers to provide professional quality communications on both ends of the call.

Compatibility

Available with VXi, Plantronics® and GN Netcom®/Jabra® compatible quick disconnect styles to ensure that the headset easily integrates with the current installed base of products. Direct connect versions are available for phones with built-in headset ports.

VXi Corporation • 271 Locust Street • Dover NH 03820 USA • 800-742-8588 • 603-742-2888

For more than 20 years, VXi Corporation has been at the forefront of providing best-in-class telecommunication and speech recognition solutions for contact centers, offices and mobile professionals. Known around the world for delivering value, excellence and innovation to the market, VXi meets the highest global standards for product quality and service, and its products are backed by the industry's best warranties.

Clear and consistent communications

- Noise-canceling microphone ensures that only the user's voice is heard and not the background noise
- Three wearing styles provide a greater range of options for the user while being very lightweight and improving all-day wearing comfort
- High quality audio receivers ensure that the user hears the person on the other end of the call
- Gooseneck microphone boom design ensures constant and proper microphone placement
- Hearing protection feature helps to avoid sudden and unexpected sound spikes (such as fax machine noises)

1 headset - includes 3 wearing styles!

- ▶ Over-the-head
- ▶ Behind-the-neck
- ▶ Over-the-ear
